Super Elite Space Force  
Published on Jun 29, 2018

This is an in-depth documentary on the U.S. Secret Space Program, called "Solar Warden". It includes illustrations of aircraft and spacecraft designs as well as the craft currently in operation. This video was originally created by "Biblical Prophecy TV".

Why has the SSP been kept secret? Trump speeches before and after inauguration included promises to unveil free energy devices which have been patented and used by the (former) "elite" for about 70 years. Under existential threat, all the various forms of free energy have been kept secret for all these years.

As soon as the public is informed about non-earthly space craft, the ensuing questions will soon reveal they are not using oil derivatives, but anti-gravity and free energy devices to levitate and propel these vehicles. It will quickly become obvious that we don't need oil, we don't need polluting energy sources. Once these devices are revealed and mass produced, it will be the end of the oil industry, the drilling, the fracking, the pipelines, the tankers, the internal combustion engines, gas stations, utility bills, etc.

Disclosure will be a time for energy freedom for humanity, to replace our current system of total dependency on the energy industry.

Trump has also mentioned that it is his goal to have the cleanest environment possible, with a focus on air and water quality. He doesn't say it directly, but he referring to chem-trail spraying in our skies, and by-products of the oil-based energy economy.

World-wide chem-trail spraying by the governments of the world since WWII have caused a 60% efficiency reduction of solar panel output. Chem-trail spraying has been done from both commercial and military aircraft, and is also a top secret operation.

Along with radiation leaks from nuclear disasters, chem-trails are also one of the primary contributors to rapid decline in the world's diversity of life both on land and in the sea, starting with plankton in the sea and bees on land, spreading quickly to reduction in biodiversity and reproduction in higher life forms.

This video is intended to educate the audience on these long-standing issues facing life on earth.

Transformation begins with a closer relationship to God through mediation on, prayer to, and faith in God. One of the most important steps in the process is to wait upon God, so we can listen in silence and hear what God has to say. God bless you.
